The State of California's Safe Drinking Water and Toxic Enforcement Act of 1986 is known as California Proposition 65 (“CA Prop 65”). The Proposition is intended by its authors to protect California citizens and the State’s drinking water sources from chemicals known to cause cancer, birth defects, or other reproductive harm and to inform citizens about exposures to such substances. The State of California maintains and updates this list of chemicals on their website¹ (most current CA Prop 65 List dated **3 January 2025**).

Page 1 of 2

Any product containing any quantity of these chemicals must be labeled with the applicable warning statement if the product enters California.

- *“Warning! This product contains a material(s) known to the state of California to cause cancer. For more information, go to <https://www.p65warnings.ca.gov/>.”*
- *“Warning! This product contains a material known to the state of California to cause birth defects or other reproductive harm. For more information, go to <https://www.p65warnings.ca.gov/>.”*

CA Prop 65 has no *de minimis* level. Therefore, products containing even trace or ppm amounts of a listed chemical must be labeled accordingly. Based upon a review of the product’s composition and the CA Prop 65 List, we can offer the following statement. Based upon a review of the product’s composition and the CA Prop 65 List, we can offer the following statement.

Please be aware that the above-referenced product may contain the following substance(s) as unintentional (i.e., technically unavoidable) impurities found by the State of California to cause cancer, birth defects, or other reproductive harm.²

Toluene (CAS 108-88-3) at ≤ 30 ppm and Benzene (CAS 71-43-2) at ≤ 2 ppm

If you have additional questions, please contact us via your sales representative.

Disclaimers:

LANXESS does meet all of our regulatory obligations regarding the disclosure of certain impurities and/or constituents with specific Hazard Profiles (e.g., CMR substances) per specific regulations (e.g., California Prop 65, EU REACH SVHC declarations). If a specific substance is disclosed in product documentation, but expected warnings are not present (e.g., California Prop 65 warning), the substance is monitored, but it is either below a disclosure threshold or is below the Limit of Detection of the monitoring assay. When a substance is consistently below the Limit of Detection, we are unable to confirm either its presence or absence.

The manner in which you use and the purpose to which you put and utilize our products, technical assistance, and information (whether verbal, written, or by way of production evaluations), including any suggested formulations and recommendations, are beyond our control. Therefore, it is imperative that you test our products, technical assistance, and information to determine, to your own satisfaction, whether they are suitable for your intended uses and applications. This application-specific analysis must at least include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by us. Unless we otherwise agree in writing, all products are sold strictly pursuant to the terms of our standard conditions of sale. All information and technical assistance are given without warranty or guarantee and are subject to change without notice. It is expressly understood and agreed that you assume and hereby expressly release us from all liability, in tort, contract, or otherwise, incurred in connection with the use of our products, technical assistance, and information. Any statement or recommendation not contained herein is unauthorized and shall not bind us. Nothing herein shall be construed as a recommendation to use any product in conflict with patents covering any material or its use. No license is implied or, in fact, granted under the claims of any patent.
