TIXOSIL[®] 68B FCC

FDA 21 CFR § 172.480

Tixosil[®] 68B FCC, Synthetic Amorphous Silica (SAS) manufactured by Solvay USA Inc., also known as Silicon Dioxide (CAS# 11926-00-8/ 7631-86-9) is Generally Recognized as Safe (GRAS) and approved for use as a food additive. It is permitted for direct addition to food for human consumption as an anti-caking agent not to exceed 2 percent by weight of the food in accordance to 21 CFR § 172.480 of the US Food and Drug Administration (FDA) Regulation.

Silicon Dioxide is also listed in the following sections of 21 CFR§ 160.105, 160.185, 172.230, 173.340, 175.105, 175.300, 175.320, 176.170, 176.180, 176.200, 176.210, 177.1200, 177.2250, 177.2420, 177.2600, 178.3297, 182.90, 73.1 and 73.575. These CFR sections must always be checked for the complete context before any conclusion is made as to the allowed regulated use.

Please note that this information, based on our expertise shall not constitute an additional specification and shall not be binding between the parties.

Warmest regards,
