

Hereby, Quality Manager undersigned certify that:

INFOSA appreciate the opportunity to provide you with information relevant to our food security programs. Our manufacturing facility is regulated by the Food and Drug Administration (FDA) and subject to registration with the FDA in accordance with the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 (Bioterrorism Act) and the FDA Food Safety Modernization Act of 2001 (FSMA). As of January 11, 2019, our facilities are current with registration requirements for both the Bioterrorism Act and FSMA. INFOSA has also confirmed that all our suppliers have complied with the above registration requirements, where applicable.

Because the disclosure of our specific food defense and security procedures would jeopardize our ability to sufficiently secure our process, our company keeps the details of our program, and the FDA registration number strictly confidential. Our manufactures abide by our strict supplier approval process and requirements to have tamper evident packaging. INFOSA seek to continually improve our operations in order to maintain safe and secure products.

Mireia Cotaina
Quality Manager
