SQF Audit

We recently passed our first SQF level 2 Audit and can now say we meet the requirements of the Global Food Safety Initiative (GFSI). We have been working toward SQF level 2 Certification for the past two years and will no longer have the GMA safe audit. Our goal was to transition from the GMA Safe Certification to the much more comprehensive and respected SQF level 2 Certification. We wanted to inform you of the change to our Food safety program and let you know that an electronic copy of the SQF certificate is now available for your needs. We are excited to share this information with you and look forward to continually providing you FD&C color dye and Lake products as a world class supplier.
