World Anti-Doping Agency (WADA) Prohibited Substances - Food Starches and MALTRIN®
Maltodextrins and Corn Syrup Solids

Food starches, MALTRIN® maltodextrins and corn syrup solids are produced using corn as the raw material. The process uses starch extracted from the corn kernel to produce food starches, maltodextrins and corn syrup solids. Grain Processing Corporation (GPC) does not use any of the banned substances listed on NSF Annex C, NFL/NFLPA, MLB or the World Anti-Doping Agency (WADA) Prohibited List 2023, which is effective January 1, 2024 through December 31, 2024. This statement is based on processing knowledge and no testing has been conducted on the finished products.

If you have additional questions or concerns, please do not hesitate to contact a representative at Grain Processing Corporation.

Kind regards,

Marcie Hanssen
Quality & Regulatory Specialist
Grain Processing Corporation
