Safety Data Sheet acc. to OSHA HCS

Version: 10.0

Reviewed on 07/22/2024

### **1** Identification

- · Product identifier
- Trade name: <u>SYLOID® 244</u>
- Application of the substance / the preparation: Intermediate product of varied applicability in industry and trade.
- $\cdot$  Details of the supplier of the safety data sheet
- Manufacturer/Supplier: W. R. Grace & Co.-Conn 7500 Grace Drive Columbia MD 21044 U. S. A.
- Information department: Health and Safety (9 AM to 5 PM-EST) 1-410-531-4000 MSDS.Davison@grace.com
- Emergency telephone number: Chemtrec North America: +1-800-424-9300 Chemtrec International: +1-703-527-3887 Other Emergencies (24hr): +1-410-531-4000

## 2 Hazard(s) identification

- Classification of the substance or mixture The substance is not classified, according to the Globally Harmonized System (GHS).
- · Label elements
- · GHS label elements None
- · Hazard pictograms None
- · Signal word None
- · Hazard statements None
- · Hazard not otherwise classified

The product is very adsorbent and may have a drying effect on skin and eyes. When exceeding the OEL (Occupational Exposure Limit) a mechanical overburdening of the respiratory system is possible.

## 3 Composition/information on ingredients

- · Chemical characterization: Substances
- · Additonal information:
- · CAS No. and description:

CAS: 7631-86-9 amorphous silicon dioxide, chemically prepared

99-100%

· Additional information: For the wording of the listed hazard phrases refer to section 16.

### **4 First-aid measures**

- · Description of first aid measures
- General information: Take note of the following instructions
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Generally the product does not irritate the skin. Wash with water.
- After eye contact:

Flush opened eye with large quantities of running water for at least 30 minutes. If symptoms occur, consult a doctor.

Safety Data Sheet acc. to OSHA HCS

Version: 10.0

Reviewed on 07/22/2024

Trade name: SYLOID® 244

- · After swallowing: Seek medical attention. Do not induce vomiting.
- · Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

## 5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- For safety reasons unsuitable extinguishing agents: No further relevant information available.
- · Hazardous combustion products No further relevant information available.
- · Advice for firefighters
- · Protective equipment: Wear personal protective equipment.
- · Additional information
- Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

### 6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Wear protective clothing.
- · Environmental precautions: Damp down dust with water spray.
- · Methods and material for containment and cleaning up:
- Vacuuming or wet sweeping may be used to avoid dust dispersal.
- **Reference to other sections** See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.
- No dangerous substances are released.
- · Protective Action Criteria for Chemicals
- · PAC-1:
- 18 mg/m<sup>3</sup>
- · PAC-2:
- 740 mg/m<sup>3</sup>
- · PAC-3:
  - 4,500 mg/m<sup>3</sup>

## 7 Handling and storage

- · Handling:
- · Precautions for safe handling
- Prevent formation of dust.
- Keep receptacles tightly sealed.
- Provide suction extractors if dust is formed.

Use appropriate industrial vacuum cleaners or central vacuum systems for dust removal. Take precautionary measures against static discharges.

#### · Information about protection against explosions and fires:

Protect against electrostatic charges. The product is not flammable.

- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed. Store in dry conditions. This product is hygroscopic.

### 8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see section 7.
- · Control parameters

· Com	ponents with limit values that require monitoring at the workplace:

- Hazardous decomposition products: No dangerous decomposition products known.

### 11 Toxicological information

#### · Information on toxicological effects

· Acute toxicity:

· LD/LC50 values that are relevant for classification:			
CAS: 7631-86-9 amorphous silicon dioxide, chemically prepared			
Oral	LD50	>5,000 mg/kg (rat) (OECD 401)	
		>5,000 mg/kg (rabbit)	
Inhalative	LC0	>140->2,000 mg/m <sup>3</sup> /4h (rat) (OCED 403) Maximum attainable concentration, mortality does not appear.	
· Primary irritant effect:			
· on the skin:			

#### CAS: 7631-86-9 amorphous silicon dioxide, chemically prepared

Irritation of skin IS 0 (rabbit) (OECD 404)

· on the eye:

#### CAS: 7631-86-9 amorphous silicon dioxide, chemically prepared

Irritation of eyes IS 0 (rabbit) (OECD 405)

• Respiratory sensitization No further relevant information available.

• Skin sensitization No further relevant information available.

· Other information:

Amorphous silica dioxide is chemically and biologically inert.

By the insolubility in water there is a separation at every filtration and sedimentation process.

· Behavior in environmental systems:

- · Bioaccumulative potential Does not accumulate in organisms
- · Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes: Not hazardous for water.
- · Results of PBT and vPvB assessment
- **PBT:** Not determined.
- · **vPvB:** Not determined.
- · Other adverse effects No further relevant information available.

### 13 Disposal considerations

• Precautions for disposal:

· Recommendation:

Disposal must be made according to official regulations.

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State/provincial and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state/ provincial and local requirements.
