RE: Presence of BSE and TSE – INEOS Glacial Acetic Acid

This is in response to your recent inquiry concerning the presence of bovine spongiform encephalopathy (BSE) and transmissible spongiform encephalopathy (TSE) in INEOS Glacial Acetic Acid.

Please be advised that no animal fats, oils, milk products or other animal products are used as components of, or in the manufacture or blending of the glacial acetic acid product supplied by INEOS Acetyls. Therefore, it is free from BSE/TSE.

I trust that this information addresses your concerns. If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Zach P. Drerup". The signature is fluid and cursive, with the first name "Zach" and last name "Drerup" clearly distinguishable.

Zachary P. Drerup
Product Manager, INEOS Acetyls
