Storage and Shelf Life

PRODUCT:	Ammonium sulfate						
GRADES:	All						
STORAGE CONDITIONS:	Cool, dry storage. Recommended range of 40 – 90F.						
SHELF LIFE:	GAC Chemical Corporation will guarantee the shelf life of ammonium sulfate for 3 years from the manufacture date.						
RETAIN SAMPLES:	Retained samples are held for 4 years at GAC.						
RE-EVALUATION:	Under normal storage conditions, ammonium sulfate is a stable material that will keep indefinitely. It is acceptable for use if it meets the following criteria: <table><tr><td>1. Assay:</td><td>≥ 99 % ammonium sulfate</td></tr><tr><td>2. Color:</td><td>White</td></tr><tr><td>3. Appearance:</td><td>No obvious contamination</td></tr></table>	1. Assay:	≥ 99 % ammonium sulfate	2. Color:	White	3. Appearance:	No obvious contamination
1. Assay:	≥ 99 % ammonium sulfate						
2. Color:	White						
3. Appearance:	No obvious contamination						

NOTE: Ammonium sulfate may harden over time. This is considered normal.

A handwritten signature in black ink that reads 'Jennifer Alley'.
