

RE: Shelf Life - BP Glacial Acetic Acid

This is in response to your recent inquiry concerning the shelf life of BP Glacial Acetic Acid.

From an internal laboratory study, BP considers the shelf life of acetic acid to be indefinite, provided that it is stored under proper conditions. Therefore the acetic acid product does not have an expiration date. It is recommended that acetic acid stored for extended periods be regularly tested to confirm that there has been no ingress of water.

I trust that this information addresses your concerns. If you have any questions, please feel free to contact me by telephone at +1-409-949-9599 or by email at gary.elbert@bp.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Elbert".
