<input type="checkbox"/> Manufacturer <input type="checkbox"/> Broker <input checked="" type="checkbox"/> Distributor <input type="checkbox"/> Other (please describe): _____			

DECLARATION
<p>I hereby declare the following:</p> <ol style="list-style-type: none"> Procurement procedures throughout the supply chain require that the crop source for the above-named Input/Ingredient must be grown strictly in the country or countries listed below and that no imported crop or crop-derivatives may be commingled. Procedures throughout the supply chain are in place for traceability, cleanout, and segregation of compliant materials from non-compliant materials. The above-named Input/Ingredient is derived from the following High-Risk crop (select): <ul style="list-style-type: none"> <input type="checkbox"/> Alfalfa <input type="checkbox"/> Apple <input type="checkbox"/> Canola <input type="checkbox"/> Corn <input type="checkbox"/> Cotton <input type="checkbox"/> Eggplant <input type="checkbox"/> Papaya <input type="checkbox"/> Pineapple <input type="checkbox"/> Potato <input type="checkbox"/> Soy <input type="checkbox"/> Sugar Beets <input type="checkbox"/> Zucchini & Yellow Summer Squash This crop is grown in the following country or countries (list countries rather than trading blocs such as the EU): <p>Source is Cassava, grown in Thailand</p> <p>I declare that the foregoing is true and correct.</p> <p style="text-align: right;"> Signature: <u></u> Print Name: <u>April Gelnaw</u> Date Signed: <u>March 3, 2023</u> </p>

Country of Origin Crop Source Declaration

Information for the Participant for the use of this Crop Source Declaration

1. This form is to be used for the **Country of Origin** compliance pathway for the purpose of demonstrating the country/countries in which a High-Risk crop is grown.
2. A separate Country of Origin Crop Source Declaration must be completed for each High-Risk crop or crop-derived single Input/Ingredient unless the Input is bee forage or livestock pasture.
 - a. When sourcing from ONE country, multiple crops may be selected for bee forage or livestock pasture.
 - b. Only ONE crop may be selected if sourcing from multiple countries.

Non-GMO Project Standard Terms and Definitions:

High Risk – *Organisms and the Inputs and Ingredients derived from them for which GM counterparts are widely commercially available.*

Ingredient – *Any material or substance that is a component in the creation of a wholesale or retail consumer good and present in said good in either its original or altered form.*

Input – *Any material or substance that is used in the production of a wholesale or retail consumer good. Not all Inputs are necessarily represented in, or present in, said good.*

For more information, please see [the Non-GMO Project Standard](#) or contact your Technical Administrator.
