

CALIFORNIA PROPOSITION 65 STATUS

ALL CALCIUM CHLORIDE PRODUCTS

Calcium chloride is not listed on the California Governor's current list of Carcinogens, Reproductive Toxicants, and/or Candidate Carcinogens, but may contain trace amounts of impurities that are listed.

Occidental Chemical Corporation (OxyChem) does not routinely analyze its calcium chloride products for all trace impurities.

Proposition 65 regulations should be consulted regarding warning requirements, if any, for the final product and whether any exposures to listed chemicals would be within a safe level (i.e., a No Significant Risk Level or NSRL for carcinogens, and/or a Maximum Allowable Dose Level or MADL for reproductive toxins).
