

GRAS Status

CI Baking Powder 134403

Please be informed that the above-referenced product, manufactured by Corbion, is a food grade bakery ingredient. Within the Code of Federal Regulations (CFR), the FDA has designated some additives “Generally Recognized as Safe” (GRAS), others are regulated as permitted food additives, with conditions and limits for use in foods. Regulated and GRAS status generally applies to chemical additives rather than foodstuff-ingredients.

All of the components of this product are designated as GRAS in 21CFR, the specific references are:

- Sodium Acid Pyrophosphate – 182.1087
- Sodium Bicarbonate – 184.1736
- Monocalcium Phosphate – 182.1217

Corn Starch is a foodstuff, so GRAS does not apply.

We hope the above information will be helpful to you and your company. If you have any further questions, please contact the Compliance and Documentation Department at documents@corbion.com or by phone at (800) 669-4092.
