To Whom It May Concern,

Niacet Corporation hereby declares that in all production and storage locations, pest control is in place. Pest control is performed by an external company once per month.

Sincerely,

NIACET CORPORATION

CONTINUING GUARANTEE

This will serve as a Guarantee that as of the date of shipment, all products produced and sold by Niacet Corporation listed as follows:

Calcium Propionate	Calcium Acetate
Sodium Propionate	Sodium Stearoyl Lactylate
Sodium Acetate	Provian K
Sodium Diacetate	Provian A
Sodium Trihydrate (60%)	Provian P

Will:

1. Meet all Niacet Corporation specifications for the Product as set forth on the specification sheets currently published on the Niacet Corporation's website (www.niacet.com).
2. Be, on such date, not adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act, and not an article which may not, under the provisions of section 404, 505, or 512 of the act, be introduced into interstate commerce.

This guarantee shall:

3. Be a continuing guarantee for all shipments of the Product purchased from Niacet Corporation from this date unless and until it is cancelled, terminated, amended or supplemented by a written document with specific references to this Guarantee.
4. Specifically replace any existing Guarantee given by Niacet Corporation to Buyer covering identical Product.
5. Cover only the Product in its unmodified form, condition and packaging as of date of shipment.
6. Not guarantee that the Product complies with foreign laws or regulations.

Dear Customer:

As you are aware, Niacet has recently purchased Kemira ChemSolutions' food, pharmaceutical, propionate and acetate business along with their Tiel, Netherlands facility. We are pleased to inform you that Niacet has designed a new bag for the propionate product lines. This effort is being coordinated between Niacet's US and Netherlands locations. The design layout of the bag will be used for both facilities and we anticipate no change in specifications of product. The conversion has already begun and when completed, only Niacet's name will be shown, replacing the Kemira name on bags filled at our Netherlands facility. This is expected to be completed on or before July 31, 2013.

We will attempt to provide answers to some frequently asked questions:

1. Calcium Propionate sold to the North America market will be primarily produced in the US
2. Calcium Propionate sold to Europe will be primarily produced in the Netherlands
3. The Kemira ChemSolutions acquisition included the purchase of the "ProBake" trademark and will be used on the propionate product line at both facilities
4. Niacet's Calcium Propionate LD grade name will be changed to Calcium Propionate Powder
5. The bags will clearly state the country of manufacture
6. Bag construction will remain the same

We at Niacet appreciate your business. We will continue to provide World-Class Quality and maintain a World-Class Reputation. If you have any questions, please contact us at 800-828-1207 or 716-285-1474.

Sincerely,

NIACET CORPORATION

Dear Customer:

In a continuing effort to improve our management systems, Niacet will be upgrading to a new SAP version in Q4 2015. We are excited about the many features we will gain with the new software version. We do not anticipate any negative effects for our customers; however, we would like to take this opportunity to inform you of some changes that will occur.

1. All item/material numbers will be re-numbered in the new system. We will reference the old item numbers in the master data of the new SAP system, allowing us the option to reference the old item numbers for product manufactured prior to the switch.
2. The current lot code will be replaced with a computer generated sequential 10 digit batch number. Current inventory at the time of cut over will carry a reference to the old lot number, allowing forward traceability to the point of sale. All history in the old system will be maintained to allow backward traceability to raw materials and packaging.
3. There will be changes in layout and appearance to the present documents provided, including invoices, order acknowledgments and certificate of analysis.

Should you have any concerns or questions, please feel free to address them through our customer service team at niacetsr@niacet.com or 800-828-1207. We at Niacet appreciate your business. We will continue to provide World-Class Quality and maintain a World-Class Reputation.

Sincerely,

NIACET CORPORATION
