

Allergen Statement

049000 EVO-100™ USP-NF/FCC Propylene Glycol (Excipient/Food Use Only)

051000 USP-NF Glycerin -- Excipient/Food Use

ADM Propylene Glycol products are converted from glycerin which is a byproduct of edible vegetable oil based biodiesel manufacturing. The origin sources of glycerin can be any combination of soybean, canola, coconut, corn, and/or cottonseed oils in a state determined to be highly or fully refined oils. The following table indicates the allergen labeling exemption status by select regulatory authorities as related to highly/fully refined soybean and coconut oils as raw materials for refined glycerin production:

	Are highly/fully refined Coconut Oils and its derivatives declared as an allergen	Are highly/fully refined Soybean Oils and its derivatives declared as an allergen
USA	No – Exempt by Law	No – Exempt by Law
EU	N/A - Not declared an allergen	No – exempt by regulation
Canada	N/A - Not declared an allergen	No – exempt by regulatory discretion
Australia/ NZ	N/A - Not declared an allergen	No – exempt by regulation

Additional allergen-related information for these same select regulatory authorities is being provided below.

	USA	CAN	EU	AUS NZ	Present in Final Product	Present in production line	Present in production facility	Cross Contamination Possible
