LASDL60 Microbiological environment

We hereby certify that GALACID POWDER 60 (LASDL60) has anti microbiological properties. That is why it is used in the industry as an acidulant, preservative and acidity regulator.

However, as an integral part of our HACCP system, we perform the bellow microorganism tests to monitor and manage the microbiological environment in the following processing zones:

Zone	Microorganism to be analyzed
Surfaces with no direct contact situated within a radius < 1m	Mesophilic, molds, yeasts, enterobacteria and Salmonella
Surfaces with no direct contact situated within a radius > 1m	Mesophilic, enterobacteria
Operator’s hands	Enterobacteria
Some surfaces in indirect contact with the product	Mesophilic, molds, yeasts and enterobacteria
Air	Mesophilic, molds and yeasts

We remain available for any additional information you may need.
