ORGANIC STATEMENT FOR LOCUST BEAN GUM

Section 205.606 of the Federal Register states that Locust Bean Gum is classified as a nonorganically (non-synthetic) produced agricultural ingredient that is allowed in or on food products labeled as “organic” or “made with organic” at levels of up to 5% by total weight, excluding water and salt, only when the product is not commercially available in organic form.

Tilley’s food grade locust bean gum products, when used in accordance with the above criteria, may be used in or on food products labeled as “organic” or “made with organic”.
