RE: Residual Solvents

Dear Valued Customer:

The USP31 General Chapter for Residual Solvents <467> requires that all excipients will be subject to control of residual solvents. Primient confirms that class I, II or III residual solvents and solvents listed in Table 4 are not used in or produced during the process to make Primient Corn based products.

Quality of our finished products is of utmost importance and priority at Primient. We understand our customers' need for high quality and reliable ingredients. Your business is important to Primient. If you have any questions or require further information, please contact us.

Sincerely,

A handwritten signature in cursive script that reads 'Chelsea Sisson'.
