Certificate of Origin

To whom it may concern,
TOTAL certifies that:

- NEVASTANE and VESTAN greases are products of petrochemical origin.
- NEVASTANE and VESTAN greases are NSF-H1 registered. Therefore, these products are acceptable as lubricants with incidental food contact (H1) for use in and around food processing areas. Please visit www.NSF.org for registration letters on our entire product range.
- NEVASTANE and VESTAN greases are not exposed to products of animal origin during manufacturing and handling.
- NEVASTANE and VESTAN greases do not present any of the potential risks associated to products of animal origin, especially those regarding contamination by Bovine Spongiform Encephalopathy (BSE) or Transmissible Spongiform Encephalopathien (TSE).
- NEVASTANE and VESTAN greases are not exposed to products of vegetable origin during manufacturing and handling. They are substantially free of genetically modified organisms (GMO) in compliance with the EC regulations 1829/2003 and 1830/2003.
- NEVASTANE and VESTAN greases do not contain any ethyl alcohol.
- NEVASTANE and VESTAN greases do not contain any allergenic food ingredients in compliance with the Directive:
 - 2007/68/EC amending the Annex IIIa to Directive 2000/13/EC.
