PRODUCT TYPE	: ESSENTIAL OIL

PT Van Aroma hereby declare that the above-mentioned material is 100% Natural origin from its botanical source. Below are the results of our calculations for the naturalness of the material. Calculations are based on our current knowledge of the ISO 16128 Standard.

Natural Content % (including Water): 100%

Natural Origin Content % (including Water): 100%

**A cosmetic product can only be qualified as "natural" if the finished product contains a minimum of 95% of ingredients such as "natural" or "of natural origin". This standard can be applied voluntarily by manufacturers, and its use is not subject to control, unlike certified products. Applying the voluntary ISO 16128 standard does not allow the affixing of the organic name or logo on its finished product.*
