DECLARATION ON BATCH NUMBERING SYSTEM

We herewith confirm that for the product of K+S KALI GmbH

KaliSel

a batch numbering system according to the following principles is applied:

10-digit number of the format abcddeefff, a=product code, b=grain size, c=anti-caking agent, dd=year, ee=week of year, fff=consecutive number. The production date is printed uncoded.

Starting with the production from May 13, 2013 the coding of our 10-digit batch numbers will be adapted.

The new batch number will be defined as follows:

Number 1+2	Product group
Number 3+4	Year
Number 5+6+7+8+9+10	Sequential counter

The full traceability of our product will still be guaranteed.

K+S KALI GmbH
