|----------------------------------|----------------------------------------------------------------------------------------|
| <b>Product Name:</b>             | Sodium Percarbonate(Uncoated)                                                          |
| <b>Specifications</b>            |                                                                                        |
| CAS No.                          | 15630-89-4                                                                             |
| Molecular Formula                | $2\text{Na}_2\text{CO}_3 \cdot 3\text{H}_2\text{O}_2$                                  |
| Molecular Weight                 | 314.02                                                                                 |
| Appearance                       | White, free-flowing granules                                                           |
| Active Oxygen Content            | $\geq 13.5\%$                                                                          |
| Distribution of Size(50g,2mins)% |                                                                                        |
| $\geq 1.70\text{mm}$             | $\leq 3.0$                                                                             |
| $< 0.150\text{mm}$               | $\leq 8.0$                                                                             |
| Moisture                         | $\leq 2.0\%$                                                                           |
| PH Value(3% Solution)            | 10~11                                                                                  |
| Bulk Density                     | 900~1100g/l                                                                            |
| Iron Content                     | $\leq 18\text{ppm}$                                                                    |
| Packaging                        | 25kg paper bags with PE liner<br>/1000kg super sacks, palletized, and<br>shrink foiled |
