February 20, 2015

The safety and security of our world's food and feed supply chain is of utmost importance to responsible participants in that chain. Archer-Daniels-Midland Company ("ADM") exists for the purpose of serving vital needs for food and energy. We connect the harvest to the home and transform crops into products that serve those needs. That purpose necessitates attending to the safety and security of our supply chain. ADM offers this letter to inform its business partners of its commitment to the safety and security of its processes and products and to compliance with regulatory requirements designed to protect the world's food supply.

ADM is continually reviewing and improving its food safety systems and procedures, including its good manufacturing practices and implementation of programs such as hazard analysis and critical control point (HACCP). ADM regularly evaluates its facilities, processes and procedures to assess the risk of contamination of its products. A variety of safeguards and security concepts are utilized to reduce that risk. With respect to ADM's delivery network, we track rolling stock and barges and have secure areas for storage of fleets where ADM products are being held. Bulk containers for food service are inspected prior to loading and procedures for the sealing of certain empty bulk containers are in place to reduce the possibility of contamination of a container, such as a trailer, railcar or barge, while being returned for the next load. Procedures for sealing loaded containers help ensure that all openings are properly sealed and those seals are tracked to maintain integrity of the vessel to its destination.

Considering risks of unexpected events, such as global terrorism, natural disasters or global pandemic outbreaks, ADM recognizes the importance of business continuity and supply chain resilience planning. ADM maintains a Crisis Leadership Plan and has engaged in, and is committed to, initiatives to ensure a safe and stable supply of products to our customers. Examples of these efforts include ADM's active participation in the U.S. Department of Homeland Security's Customs-Trade Partnership Against Terrorism Program, an international supply chain security program, and our Pandemic Planning Task Force, a strategic planning group focused on the unique safety, security and business continuity concerns presented by the potential of a pandemic disease.

With respect to ADM's information technology, proper recovery procedures are in place to allow ADM's commercial activities to resume within a reasonable period of time in the event of a disaster. These off site data center procedures have been reviewed, enhanced and tested to ensure that information relating to the business of ADM and its business partners is protected. Established disaster recovery procedures will allow ADM to continue operations, including supplying and servicing its customers, with minimal interruptions.

The U.S. Public Health Security and Bioterrorism Preparedness Response Act of 2002 requires registration with the U.S. Food and Drug Administration ("FDA") of facilities that manufacture, process, pack, or hold food for human or animal consumption in the United States. Additionally, the Food Safety Modernization Act requires re-registration by December 31, 2012 and biennial thereafter. All covered ADM facilities are registered and ADM has procedures to assure that those registrations are properly maintained. ADM also has procedures in place to assure we meet regulatory requirements regarding record keeping by registered facilities. The Global Trade Compliance section of ADM works with key managers, customs brokers and carriers involved in importing to implement systems and procedures for compliance with the prior notice regulations issued by the FDA and to develop a flow of information that continuously ensures a timely and efficient transfer of data.

ADM's Code of Conduct recognizes the Company's obligation to follow applicable laws and regulations in every aspect of its business. Specifically, it has been and will continue to be the intent of ADM to fully comply with the regulations issued pursuant to the Public Health Security and Bioterrorism Preparedness Response Act ("Bioterrorism Act").

Occasionally, we are asked to provide registration numbers issued to ADM facilities registered under the Bioterrorism Act. Due to security concerns and advice issued by the FDA, ADM will not disclose those registration numbers, which the FDA has declared as beyond the reach of Freedom of Information Act requests. Provision of those numbers would, in our estimation, be unwise because of concerns that it could allow access to information that should be treated as confidential. However, if a customer needs confirmation of registration of specific facilities, that confirmation can be provided upon request.

Sustainability is a priority for ADM as it serves vital needs globally. Supplying our customers and the markets they serve with responsibly grown agricultural products is an operational priority at ADM. Sustainably produced crops and products reduce the impact to the environment and benefit the communities where we live and work. ADM actively participates in internationally recognized certification schemes to support sustainable agriculture worldwide. For example, ADM participates in the Roundtable for Responsible Soy, the Roundtable on Sustainable Palm Oil, the International Standard for Carbon Certification and more to support the development and implementation of sustainable agriculture.

ADM is committed to supplying its customers with safe, high-quality products. If you need additional information regarding the issue of product and process protection at ADM, please feel free to communicate with your service or technical contact or with Product Quality, Regulatory and Scientific Affairs which can be reached by phone (217) 451- 4880, by email (ProductQRSA@adm.com) or by facsimile (217) 451-2248.

Ingredient Origin Statement

The following Sorbitol products are food ingredients manufactured in the United States of America. Corn is used as the primary raw material for the manufacture of these products, and is sourced through regional grain distribution systems, regulated by the USDA and local farms. Processing aids used in the manufacture of these products have not been identified by the USDA or FDA as being potentially adulterated with melamine or melamine related compounds. The products listed below are manufactured using Current Good Manufacturing Practices (cGMPs) and are in compliance with all applicable regulations.

Sorbitol Solution, USP/FCC (product code #177010)

Sorbitol Solution Noncrystallizing, NF (product code #177710)

Sorbitol Solution High Mannitol (product code #177705)

Liquid Sorbitol 80% (product code #177080)

Maltitol Syrup Concentrate (product code #177715)

Global Food Safety Initiative (GFSI) Statement ADM BIOPRODUCTS DECATUR, IL

Auditing has been used to validate and test the integrity of our quality systems. Our systems utilize a variety of avenues, which include internal GMP/Food Safety, system, and customer audits to accomplish these tasks. The Corn Business Unit has made the decision to pursue FSSC/ISO 22000: PAS 220, which falls under the umbrella of GFSI. ADM Bioproducts in Decatur, IL completed Stage One of the GFSI audit on March 26th, 27th and 28th for the products lactic acid, xanthan gum and crystalline sorbitol. Stage two has been scheduled and will be completed before year end, 2014.

ADM recognizes that our commitment to quality, and the description of how it is enacted within our organization, is what our customers seek long term. We kindly ask for your patience as we make this transition and to be compliant with customer's immediate needs, we will provide the most current information on file.

Furthermore, if there are any questions regarding the status of any of these locations, please do not hesitate to ask.

Subject: Regarding MSG and ADM Sorbitol Products

To Whom It May Concern:

ADM Sorbitol is made from the catalytic hydrogenation of Corn Dextrose sugar using a nickel catalyst; it is manufactured on dedicated lines in a closed system. Monosodium Glutamate (MSG) is not used in the manufacture of Sorbitol nor is it expected to be found in the finished product, consequently, testing is not performed for presence of MSG in our sorbitol products.

We are happy to provide this information to you. Please do not hesitate to contact our Technical Services office if you have questions or need additional information. The toll free number here in Decatur is 1-800-553-8411

Sincerely,
ADM Technical Service

The information contained herein is correct as of the date of this document to the best of our knowledge. Any recommendations or suggestions are made without guarantee or representation as to results and are subject to change without notice. We suggest you evaluate any recommendations and suggestions independently. We disclaim any and all warranties, whether express or implied, and specifically disclaim the implied warranties of merchantability, fitness for a particular purpose and non-infringement. Our responsibility for claims arising from any claim for breach of warranty, negligence or otherwise shall not include consequential, special or incidental damages, and is limited to the purchase price of material purchased from us. None of the statements made here shall be construed as a grant, either express or implied, of any license under any patent held by ADM or other parties. Customers are responsible for obtaining any licenses or other rights that may be necessary to make, use or sell products containing ADM ingredients.

Conflict Mineral Declaration

In July 2010, the United States Securities and Exchange Commission adopted the Dodd-Frank Reform and Consumer Protection Act (herein referred to as the “Act”). This Act requires U.S. companies to disclose, on an annual basis, whether any “Conflict Minerals” are necessary to the functionality or production of any of their products (see §1502 of the Act). A “Conflict Mineral” is considered to be any of the following minerals or their derivatives originating in the Democratic Republic of the Congo (the “DRC”) or any of the adjoining countries with which the DRC shares a recognized international border:

- Tin (cassiterite)
- Tantalum (columbite-tantalite)
- Tungsten (Wolframite)
- Gold

ADM complies with all national and other applicable laws and regulations. We are committed to keeping our supply chain free from conflict minerals which are covered by laws and regulations concerning the sourcing of minerals from conflict areas.

Based on currently available information, ADM does not use conflict minerals originating in the Democratic Republic of the Congo and its adjoining countries.

RE: Code of Conduct and Ethics

Thank you for your recent inquiry. Archer Daniels Midland Company is committed to integrity in the conduct of all its business affairs and has implemented an integrity program to ensure achievement of this commitment. Attached, please find a copy of ADM's Business Code of Conduct and Ethics implemented by ADM and distributed to its employees. In this Code, ADM employees are informed of the objective to operate ADM's business in accordance with the highest ideals of character and business conduct. In addition, the Code states our policy to abide by the national and local laws of the countries in which we operate. ADM is committed to operating its business in accordance with all applicable laws and regulations, including those relative to environmental protection, food safety, labor and individual employee rights. We hope this material will satisfy your company that ADM is committed to integrity in its business.

Because of the values and integrity program that ADM has itself implemented, it has determined that wholesale acceptance and adoption of values and principles from other companies is inappropriate and would elevate form over substance. Therefore, ADM requests that you accept this information as confirmation that our company meets the criteria you have set for your Company's suppliers and to serve as a substitute for acceptance by ADM of your Code of Conduct.

Regards,

Sorbitol Solution Elemental Impurities Statement

As part of our continued effort to provide customers with information on compliance to USP-NF monograph requirements, we have tested ADM Sorbitol Solution for the Elemental Impurities listed in USP <232>. We selected a representative number of lots as our sample data set and submitted samples to our ADM Analytical Research Laboratory. Results were achieved using Inductively Coupled Plasma-Mass Spectrometry (ICP-MS) following AOAC 2013.06 methodology. In the table below, the elemental impurities established in USP <232> are listed.

ADM plans to conduct testing on a quarterly basis for Sorbitol Solution as part of our continued effort to better understand our process as it relates to Elemental Impurities and to provide customers assurance that our products will be compliant with USP <232>.

Elemental Impurity	Symbol	Class	Likely to be Present			Lowest Permitted Concentration USP <232> Table 3*	If Known, Please Identify the Expected Concentration /Units (or Range)*
			Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>		
Arsenic (inorganic)	As	1	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>	0.2 µg/g	0.4 µg/kg
Cadmium	Cd	1	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.2 µg/g	
Mercury (inorganic)	Hg	1	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Lead	Pb	1	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.5 µg/g	
Cobalt	Co	2A	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.3 µg/g	
Nickel	Ni	2A	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>	0.5 µg/g	11.5 µg/kg
Vanadium	V	2A	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Silver	Ag	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.7 µg/g	
Gold	Au	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Iridium	Ir	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Osmium	Os	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Palladium	Pd	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Platinum	Pt	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Rhodium	Rh	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Ruthenium	Ru	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.1 µg/g	
Selenium	Se	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	13 µg/g	
Thallium	Tl	2B	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.8 µg/g	
Barium	Ba	3	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>	30 µg/g	6.0 µg/kg
Chromium	Cr	3	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	0.3 µg/g	
Copper	Cu	3	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>	3.0 µg/g	14.0 µg/kg
Lithium	Li	3	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	2.5 µg/g	
Molybdenum	Mo	3	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	Unknown <input type="checkbox"/>	1.0 µg/g	0.8 µg/kg
Antimony	Sb	3	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	2.0 µg/g	
Tin	Sn	3	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	Unknown <input type="checkbox"/>	6.0 µg/g	

*Please note that the lowest limit concentrations are given in parts per million (µg/g) values and the known/expected concentrations are given in parts per billion (µg/kg) values. In USP <232> Table 3, the permitted concentrations in oral, parenteral and inhalation applications are listed. The lowest permitted concentration given in USP <232> is in the Inhalation category.
