**TIXOSIL® and TIXOLEX®
Non-GMO Status**

Silicon Dioxide products manufactured worldwide by Solvay and sold under the trademark of TIXOSIL®, are synthetic, amorphous, precipitated silicon dioxides.

Sodium alumino-silicates products manufactured worldwide by Solvay and sold under the trademark of TIXOLEX®, are synthetic, amorphous, precipitated sodium alumino-silicates.

The manufacturing processes for these products do not involve the use of sewer sludge, irradiation, or organic solvents.

These products are inorganic and contain no genetically modified substances, nor are they derived from genetically derived substances. These products are therefore non-GMO.

Very truly yours,
Solvay USA Inc.
